This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (PACE) through the joint program provider approval of Captek and Dr. Piskorowski. Captek is approved for awarding FAGD/MAGD credits. Captek is the Program Provider for this course. If you have any questions, please contact Jeanette DeJesus at Jeanette@captek.com

Where is Wolf Lake?

Located 110 air miles east of Whitehorse, Yukon, Wolf Lake is located in the middle of 2500 square miles of untouched wilderness. Air Canada has two non-stop flights daily to Whitehorse via Vancouver. Upon arrival in Whitehorse, a ten minute taxi ride delivers you to the float dock, and thus begins your adventure. The one hour flight to the lodge gives you a good appreciation of the remoteness and beauty of the Yukon. Fly in, fish and relax with us!

Wolf Lake Wilderness Lodge

is proud to present

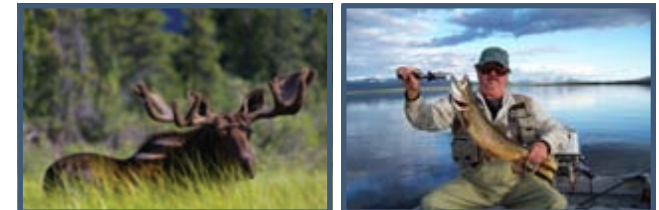

ESTHETICS WITHOUT COMPROMISE

A Dental Continuing Education Seminar

Speaker: Dr. Bill Piskorowski

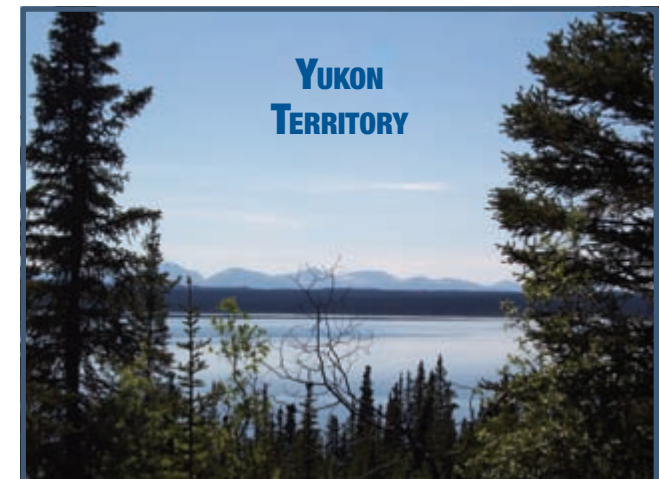

July 22-26, 2009

July 26- August 1, 2009

Fly in, Fish and Relax with us....

....in Canada's beautiful

**YUKON
TERRITORY**

Streamside Seminars LLC and CAPTEK are pleased to present this course. We are offering a unique combination of dynamic continuing education on dental esthetics and a phenomenal fishing experience in the beauty and tranquility of the Yukon.

Wolf Lake is a hidden treasure. Located deep in the Yukon Wilderness, Wolf Lake Lodge offers the ultimate in remote comfort. Surrounded by two mountain ranges, the scenery is simply breathtaking, rivaled only by the fantastic fishing opportunities.

We fish two lakes and the Wolf River for Lake Trout, Northern Pike and Arctic Grayling. All three options provide excellent opportunities for fly fishermen and spin cast fishermen alike. Five star meals and second to none wildlife viewing combine to make Wolf Lake a fabulous destination.

Visit www.wolflake.ca for more information.

Course Overview

“Esthetics Without Compromise”

This course presents an opportunity for in-depth analysis of the esthetic needs of your patient, the science behind vital tooth esthetics and chair-side time considerations.

Composite metal (Captek) demonstrates unique optical, biological and mechanical properties. This program offers a clinical overview comparing all ceramic systems to composite metal frameworks as a solution to the most challenging cases from demanding single crown to extensive bridgework. It will also help to routinely upgrade results and increase confidence in your fixed restorations over natural or implanted abutments.

Course Outline

Over the 6 days, Dr. Piskorowski will be offering 4 sessions:

- Day 1 Welcome Reception, Orientation and Presentation**
Analyzing and Planning Cases: Functional, Esthetic, and Practical Considerations
- Day 2 Material Selection: What, When and Why Comparison of Ceramic Systems and Emphasis on Composite Metals (Captek)**
- Day 3** There is considerable discussion in today’s dental world concerning philosophies of endodontic treatment and retreatment, bridge placement and implant placement. Let us consider the parameters in making decisions based on the newest evidence involving the restoration of endodontic teeth and the oral environment necessary to diagnose predictable implant placement and subsequent restorations utilizing composite metal systems. Optional Review/Question and Answers
- Day 4 Case Presentations: Discussions of Cases With Multidisciplinary Concerns**

Education: Each participant enrolled will qualify for a minimum of 8-10 C.E. credit hours (AGD/PACE).

Dr. Wilhelm A. Piskorowski is a 1979 graduate of Loyola University Dental School. He is currently the Director of Outreach and Community Affairs, an Assistant Clinical Professor in the Department of Cariology, Restorative Sciences, and Endodontics, and the Co-Director of Principles of Restorative Dentistry curriculum at the University of Michigan School of Dentistry. He is a consultant for “The Dental Advisor”, Captek (Precious Metals Inc.), and a lecturer for Streamside Seminars LLC.

Dr. Piskorowski has been awarded the honor of “Clinical Instructor of the Year” at the University of Michigan School of Dentistry five times. He has lectured nationally on smile design to numerous dental groups and is a member of the ADA, ADEA, Michigan Dental Association, Macomb Dental Society and The Vedder Dental Society.

Along with teaching and lecturing, Dr. Piskorowski continues a private practice with emphasis on cosmetic and implant reconstruction in New Baltimore, MI.
